• Recently received shareholder and regulatory approval to complete merger with Cadence Bancorporation, the parent company of Cadence Bank N.A., which is expected to close effective October 29, 2021, and create an approximately \$48 billion institution on a pro forma basis that will be the 6<sup>th</sup> largest bank headquartered in the Company's nine-state footprint.

"Our third quarter financial results reflect many key successes despite certain continued industry headwinds, particularly related to the net interest margin dynamics," remarked Dan Rollins, Chairman and Chief Executive Officer. "While our back office and support teams have been focused on preparing for the closing and operational integration of the Cadence transaction, our customer facing teammates are continuing to generate growth. We reported deposit and customer repo growth of over \$722 million for the quarter while net organic loan growth totaled approximately \$122 million, which marks the second consecutive quarter of net organic loan growth. We are obviously pleased to see continued economic stability across our footprint as well as improved loan demand. We are also proud of the results reported by our fee income businesses. Our mortgage team generated \$789 million in production volume for the quarter while our insurance commission revenue totaled \$35.8 million, representing growth of just over nine percent compared to the third quarter of 2020."

"As we look at other highlights for the quarter, our credit quality metrics continue to remain very strong. We had a negative provision for credit losses of \$7.0 million for the quarter, which was driven by net recoveries of \$2.1 million for the quarter combined with stability in our other credit quality metrics. From a capital management standpoint, we were active in our share repurchase program as we repurchased approximately 1.7 million shares of common stock during the third quarter, which is the first activity in our repurchase program since prior to the pandemic. We still have approximately 4.3 million shares available for repurchase this year under our authorized repurchase plan."

the possibility that the anticipated benefits of the Cadence Merger will not be realized when expected or at all, including as a result of the impact of, or problems arising from, the integration of the two companies or as a result of the strength of the economy and competitive factors in the areas where the Company and Cadence do business; certain restrictions during the pendency of the Cadence Merger that may impact the parties' ability to pursue certain business opportunities or strategic transactions; the possibility that the Cadence Merger may be more expensive to complete than anticipated, including as a result of unexpected factors or events; diversion of management's attention from ongoing business operations and opportunities; the possibility that the parties may be unable to achieve expected synergies and operating efficiencies in the Cadence Merger within the expected timeframes or at all and to successfully integrate Cadence's operations and those of the Company; such integration may be more difficult, time consuming or costly than expected; revenues following the Cadence Merger may be lower than expected; potential adverse reactions or changes to business or employee relationships, including those resulting from the announcement or completion of the Cadence Merger; the Company and Cadence's success in executing their respective business plans and strategies and managing the risks involved in the foregoing; the dilution caused by the Company's issuance of additional shares of its capital stock in connection with the Cadence Merger and other factors as detailed from time to time in the Company's press and news releases, periodic and current reports and other filings the Company files with the FDIC.

The foregoing factors should not be construed as exhaustive and should be read in conjunction with those factors that are set forth from time to time in the Company's periodic and current reports filed with the FDIC, including those factors included in the Company's Annual Report on Form 10-K for the year ended December 31, 2020 under the heading "Item 1A. #### Efficiency Ratio (tax equivalent) and Operating Efficiency Ratio-excluding MSR (tax equivalent) Definitions

The efficiencyratio (tax equivalent) and the operating efficiencyratio-excluding MSR (tax equivalent) are supplemental financial measures utilized in management's internal evaluation of the Company's use of resources and are not defined under GAAP. The efficiencyratio (tax equivalent) is calculated by dividing total noninterest expense by total revenue, which includes net interest income plus noninterest income plus noninterest expense disclosed as non-operating from total noninterest expense. In addition, the MSR valuation adjustment as well as securities gains and losses are excluded from total revenue.
